Front and back sit on the base.

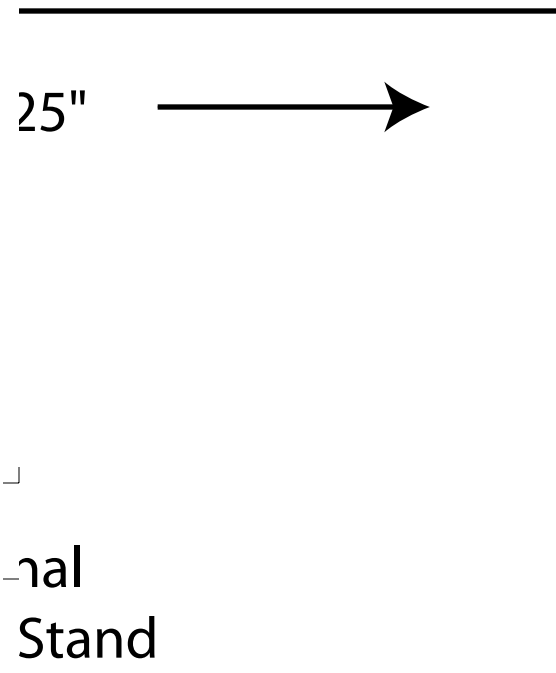

Template for Original iMac* Aquariums

Dimensions may vary for other iMac models.

Template is appropriate for a 24"x28" sheet of acrylic @ 1/4" thick base. Sides extend to cover the edges of the front, back and

.\" thickness.
ick and base.

AFTER you have cut and bonded the rest of the tank and can confirm the measurements.

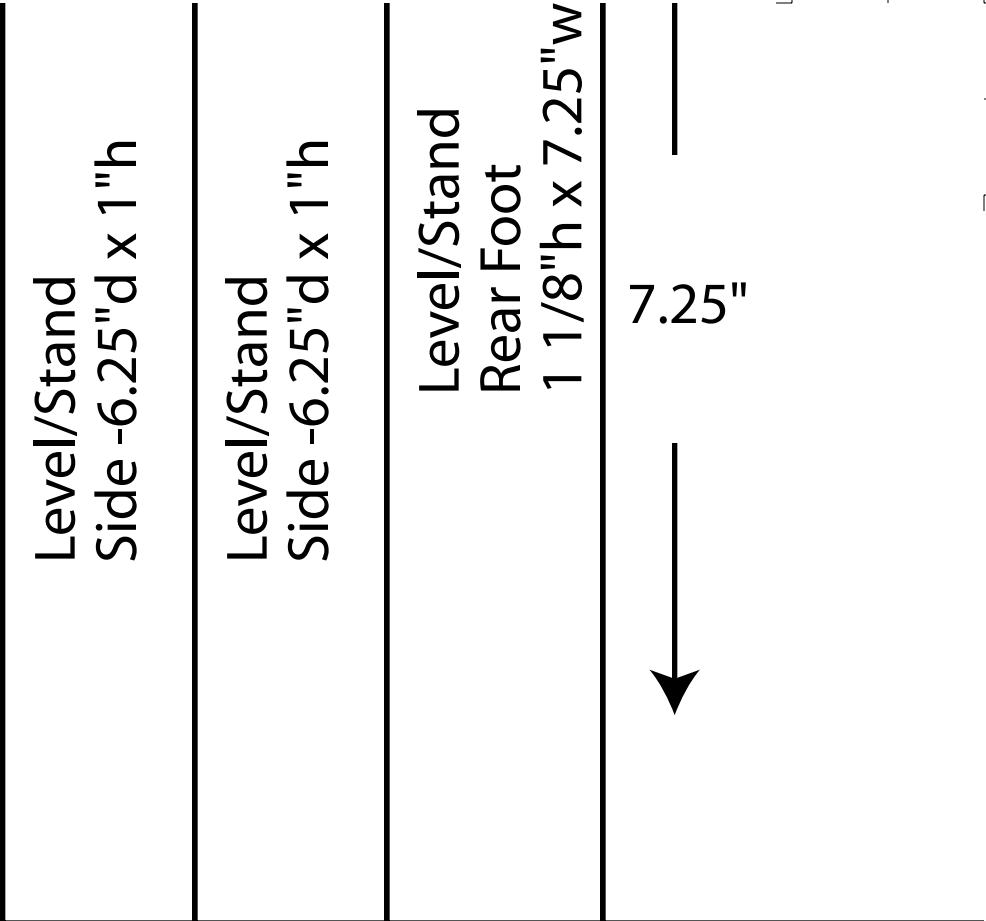

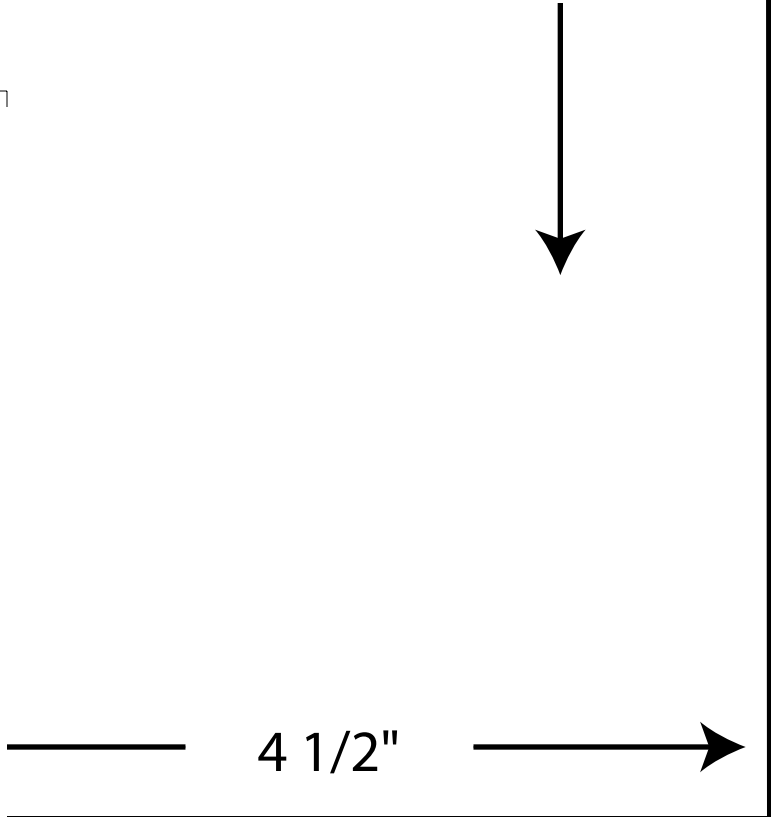

You may also want to round the front edges to match the curve of the front if you choose to bend the main part of the tank.

If you bend, be prepared for significant front-to-back torsion and deviation in both height and width.
